

From Czech Republic (Brno): go to the **end of highway**, then go through crossing with traffic-lights (straight, **direction Centrum**), then through the second crossing with traffic-lights (one possibility only = straight) and **turn right at the third crossing with traffic-lights...**

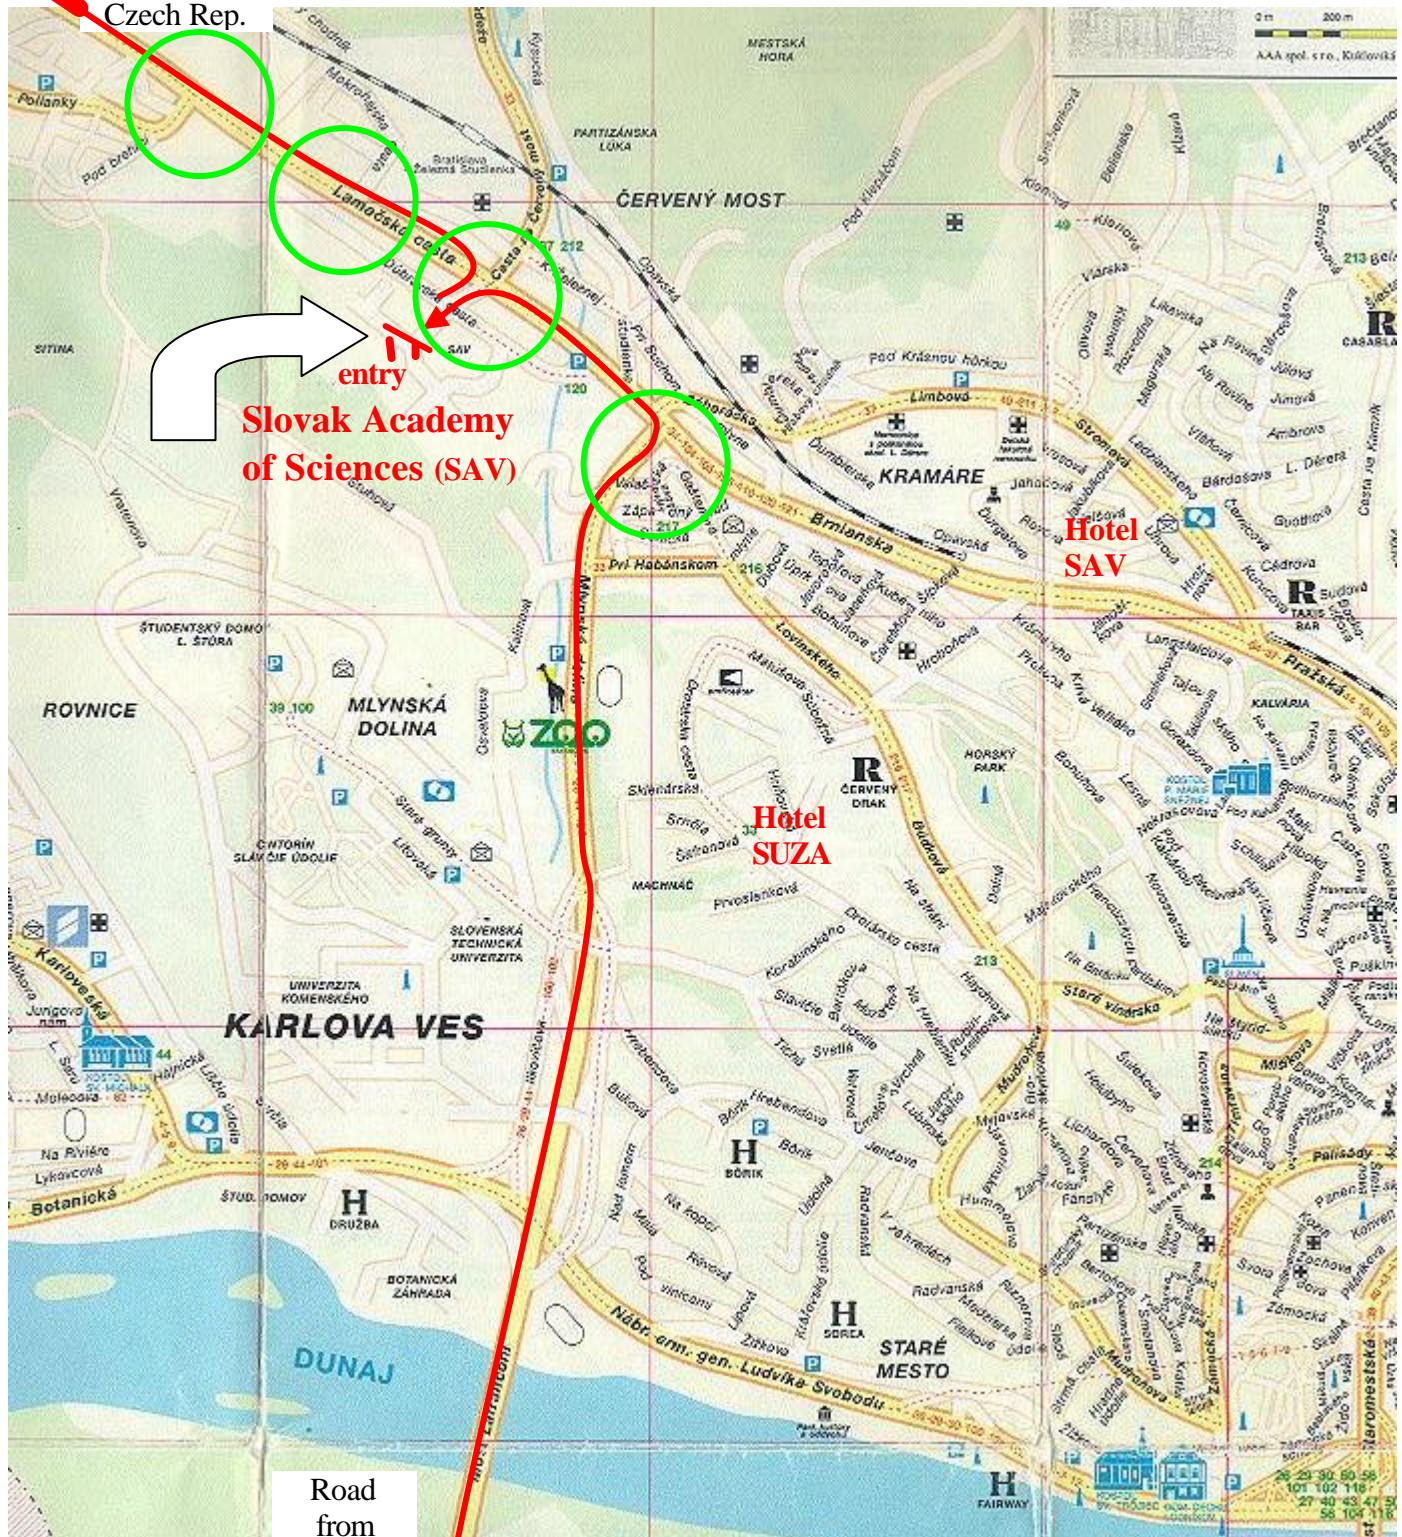

From Poland (Žilina): go to the end of highway and **almost all the time follow the direction to Brno and mostly straight ahead:** go along bridge across the Danube River (road similar to highway) to crossing with traffic-lights, then straight, and then right at double branch point (Wien-Brno), then along bridge across Danube River again, and then alongside ZOO; turn left at crossing with traffic-lights, and after approx. 200 m, at crossing with traffic-lights, **leave the direction to Brno and turn left ...**

From Austria (Vienna): go through the fly-over crossing and turn right to **direction Brno**, then along bridge across the Danube River (the same way as for Poland) ...

From Hungary (Budapest): go to the end of highway **direction Brno**, then along bridge across the Danube River (the same way as for Poland) ...

... and you will see the entry gate with barrier, with the sign "Ústavy Slovenskej akadémie vied". Ask for the Institute of Informatics (Ústav informatiky).
